## SELECTED CREDITS

Christopher Robin

Feature Film (Disney, 2018)

Ambisonic Sound FX Recordist

Spent 6 days in Delamere Forest in January recording ambisonic wind & forest ambiences. Unfamiliar with ambisonics I researched for a month prior & went on numerous test recordings. Varying weather meant I captured a great array of atmospheres along with parabolic bird fx which were also used in *A Quiet Place*.

Last Days In The Desert

Feature Film (2014)

Assistant Sound Editor

Catalogued & edited 5 days of bespoke desert recordings. After that I won the in house competition with my sound design of a scene, as chosen by the director. Utilising my knowledge of the field recordings I created a unique perspective. The film premiered at Sundance Film Festival & won *The Dolby Family Fellowship Award*.
